

Shivansh Kandwal

Data Science • Machine Learning • AI Systems Engineering • End-to-End Pipelines

Dwarka, Delhi 110077 • +91-8527991992 • shivanshkandwal1@gmail.com • linkedin.com/in/shivansh-kandwal

PROFILE

Aspiring Data Scientist with a strong focus on Machine Learning, Data Science, and data-driven system design. Proficient in Python, C, C++, and JavaScript, with hands-on experience in data analysis, model building, and real-world datasets. Skilled in statistical analysis, feature engineering, model evaluation, and preprocessing, with exposure to Hadoop and Spark. Secured 3rd place in two national-level Data Science hackathons; experienced in building end-to-end workflows from data handling to insight generation.

EXPERIENCE

IT Intern | Silverzone Enterprise India Pvt Ltd

Jun 2025 – Jul 2025

- Developed Kairo, a full-stack AI image generation platform integrating a ComfyUI backend with a responsive frontend (Electron, Node.js, Express, Python) leveraging the Flux.1 [dev] transformer model for advanced generative workflows.
- Designed a modular pipeline enabling image generation, style transfer, and AI-based upscaling through node-based workflow orchestration with efficient local network communication for distributed execution.
- Optimised data flow and task scheduling between frontend and backend for high-throughput inference workloads, abstracting complex ComfyUI graph structures into an intuitive UI layer for non-technical users.

PROJECTS

Kairo — AI Image Generation & Editing Platform [GitHub ↗](#)

Full-stack AI image generation system integrating ComfyUI backend with a lightweight frontend. Node-based workflow abstraction for generative pipelines: image synthesis, style transfer, and AI upscaling. Distributed execution over local networks for high-performance inference; bridged low-level AI workflows with user-centric interaction.

VerbiQ — AI Communication & Language Intelligence Platform [GitHub ↗](#)

AI-driven language processing platform for semantic understanding, contextual refinement, and intelligent text transformation. Backend NLP pipelines: tokenization, context modelling, response optimisation. Real-time grammar correction, clarity enhancement, and context-aware suggestions with scalable low-latency architecture.

EcoScan — AI-Powered Sustainability Learning Hub (SIH) [GitHub ↗](#)

Built for Smart India Hackathon: combined computer vision, LLM-based content generation, and gamified learning. Vision models analysed real-world objects for recyclability; Notebook LLM workflows generated educational content. Included platformer mini-games and a collection-based system for environmental awareness.

RESEARCH PUBLICATION

ML-Based Prognostic Analysis of a Hybrid Speech Emotion Recognition System Integrated with Gemini Live API [Link ↗](#)

International Journal of Scientific Research in Engineering and Management (IJSREM) • May 2026

EDUCATION

B.Tech — Computer Science & Engineering (Data Science) | Bhagwan Parshuram Institute of Technology

Expected Jun 2027

Percentage: 92.73 / 100 • CGPA: 9.58

12th — CBSE | Modern Convent School

March 2023

Percentage: 89.80 / 100

10th — CBSE | Modern Convent School

March 2021

Percentage: 90.00 / 100

SKILLS & TECHNOLOGIES

Core ML/Data: Data Analysis • Machine Learning • Feature Engineering • Statistical Analysis • Model Evaluation • Data Architecture

Languages: Python • C • C++ • JavaScript

AI / ML: Generative AI • Computer Vision • NLP • LLMs • ComfyUI • Transformer Models

Frameworks: Node.js • Express • Electron

Big Data: Hadoop • Spark • HDFS • MapReduce • Apache Sqoop

Other: Distributed Systems • UI Design • Basic Web Development

AWARDS & CERTIFICATIONS

🏆 3rd Place — Dataverse Hackathon

NSUT, 2024

🏆 3rd Place — Data-Sphere Hackathon

NSUT, 2025

🏆 1st Place — Indian Knowledge System Exhibition

BPIT

📄 Samsung Innovation Campus – Big Data Certification • Hadoop ecosystem, HDFS, MapReduce, Apache Spark & Sqoop; large-scale distributed data pipelines.

LANGUAGES & INTERESTS

Languages: English • Hindi **Interests:** Visual Storytelling • Films • Western Hip-Hop • Casual Gaming
